The next in the series of international Ni-Cu-PGE conferences comes to Perth, the centre of the Australian metal mining industry and dynamic epicentre of Earth Science research.

**KEY DATES AND PLACES**

**SYMPOSIUM**  
Wednesday 7th to Friday 9th September, Esplanade Hotel, Fremantle

**PRE-CONFERENCE WORKSHOPS**  
Monday 5th and Tuesday 6th September, CSIRO Kensington (Perth)

**PRE-CONFERENCE FIELD TRIP (to be confirmed)**  
Wednesday 31st August to Monday 5th September. Layered intrusions, komatiites, PGE and nickel sulfide deposits in the West Pilbara (Munni Munni intrusion, Ruth Well komatiites)

**POST-CONFERENCE FIELD TRIP**  
Sunday 10th to Sunday 17th September. Komatiites and nickel deposits of the Yilgarn Craton, the Nova deposit in the newly discovered Fraser Range province (to be confirmed)

**ABSTRACT SUBMISSION DEADLINE**  
End of February 2016.

**EARLY REGISTRATION DEADLINE**  
End of May 2016.

**CONFERENCE THEMES**

- Geodynamics and architecture of magmatic Ni-Cu-PGE systems
- Geophysical and geochemical imaging of ore forming processes
- Physical processes of intrusion emplacement, magma flow, sulfide liquid transport, deposition, migration and deformation
- New discoveries and exploration technologies
- Non-conventional polymetallic Ni +/- Cu, PGE ores including sedimentary-hydrothermal settings

The meeting will include tours to local laboratories including the world-class analytical and ore characterisation facilities at CSIRO, UWA and Curtin University.
